Introducing

Simplest Way to License & Buy Patents Online

WWW.IXPCONNECT.COM

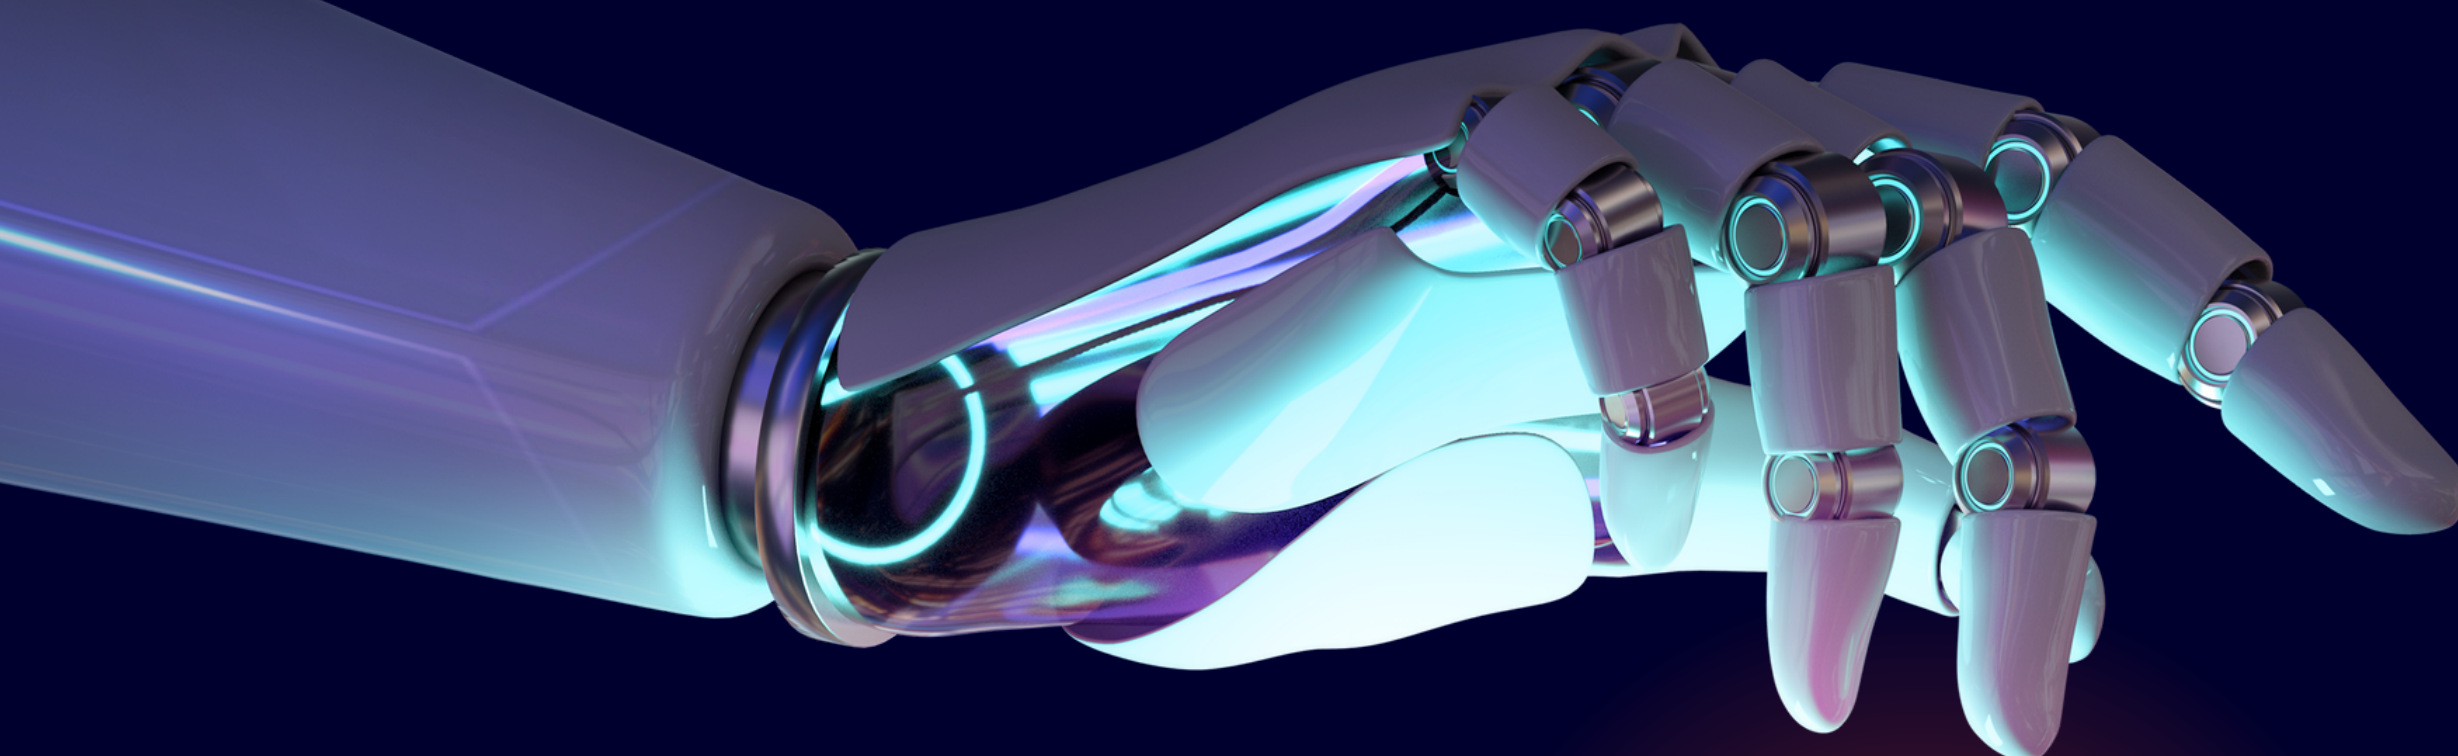

IXP CONNECT - WHO WE ARE & OUR MISSION

"iXP Connect is a SaaS (Software as a Service) provider in the intellectual property service industry, offering a cloud-based patent licensing solution.

Unlike traditional intermediaries, we have ZERO upfront service fee. Fees are only incurred when a patent holder (licensor) and a patent seeker (licensee) enter into a licensing or selling agreement.

With iXP Connect's unique task & role-based platform, "RENOVATIO," we ensure an easy, secure, and highly transparent licensing process for everyone."

PURPOSE OF RENOVATIO

Considering that over 70% of corporate patents remain unused, we believe that these patents should have a chance to be utilized before being abandoned or their expiration. That's why we developed RENOVATIO.

Online Platform by iXP Connect

RENOVATIO™

RENOVATIO is a patent licensing platform.

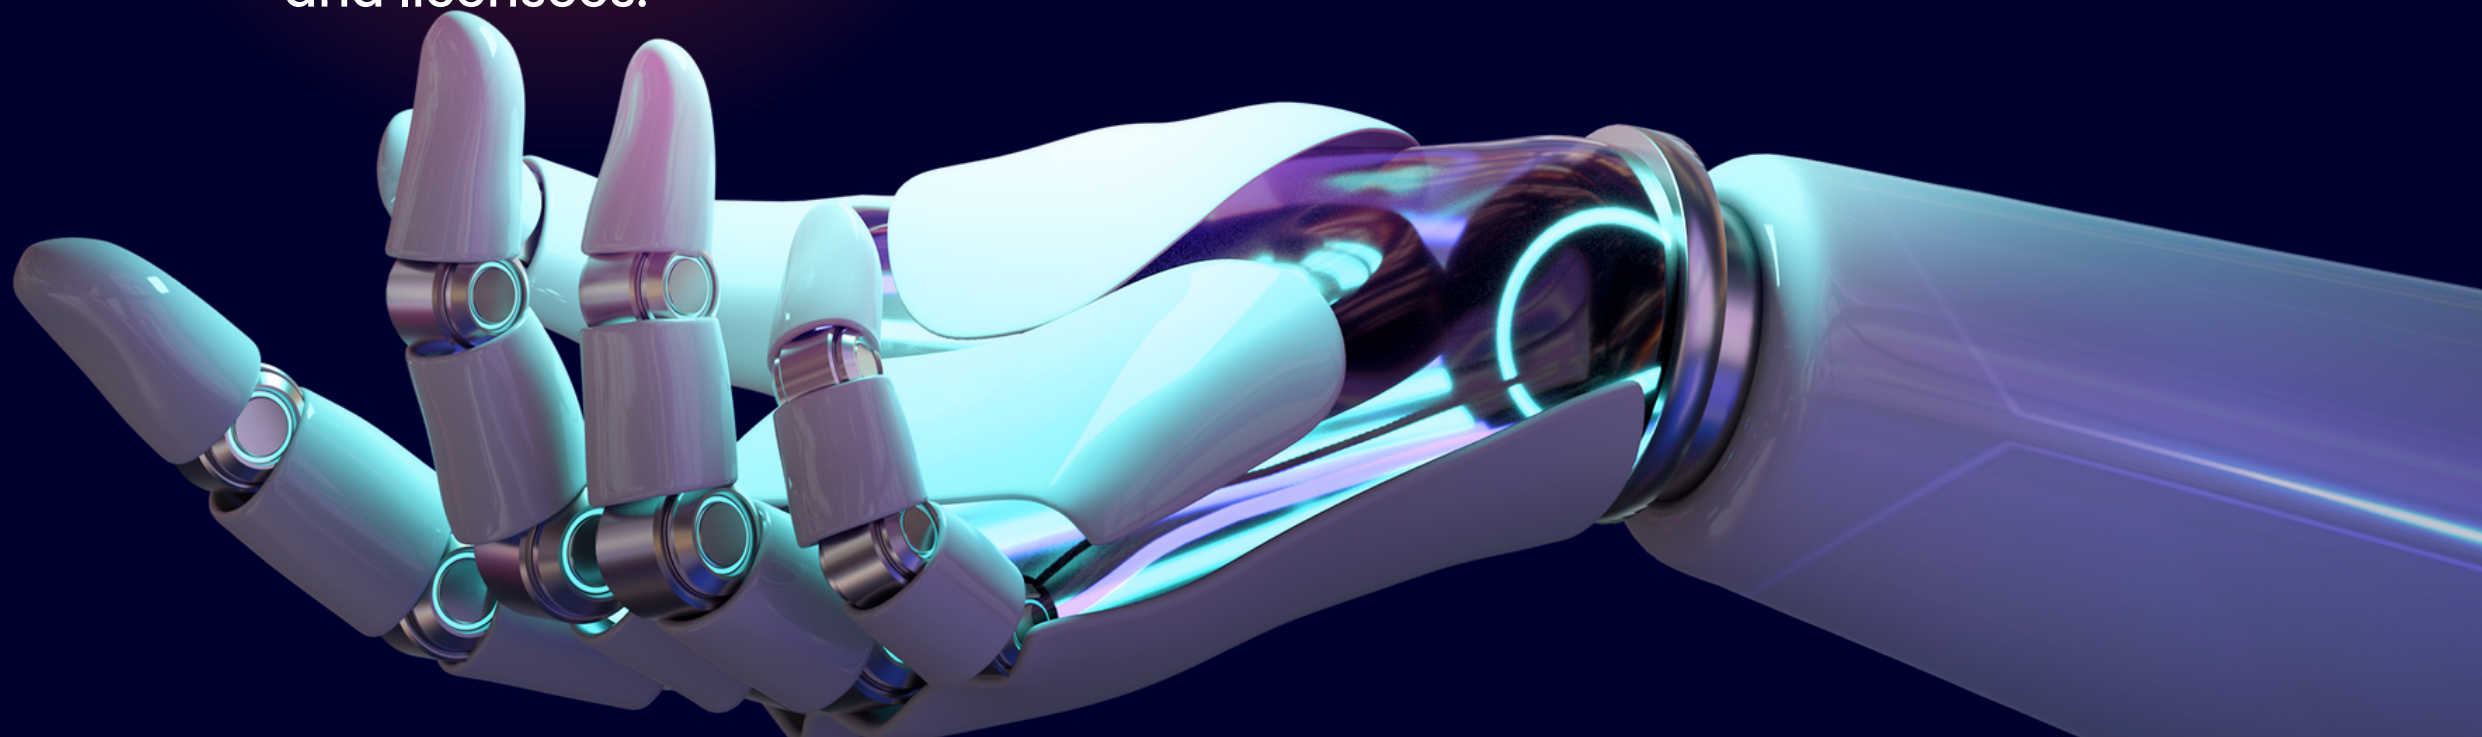

It also connects
job-seeking subject matter experts
and licensees.

Additionally, iXP wishes to empower job-seeking technical experts (SMEs) with the resilience of a phoenix.

MEANING OF RENOVATIO

RENOVATIO is a Latin word - meaning "Rebirth" and "Renew".

Phoenix used in the logo also has meanings like "Renewal", "Transformation" and "Perseverance"

Transparency

RENOVATIO PATENT CONTENT

"iXP provides a user-friendly platform powered by artificial intelligence (A.I.) and hybrid patent content, offering clear and easy access to invention summaries, benefits, and understanding of the technical applications of patents.

RENOVATIO is designed to be intuitive and user-friendly, allowing even non-technical users to navigate and operate with ease."

RENOVATIO COMMUNICATION

RENOVATIO automatically and safely archives communication logs between patent holders and patent seekers.

Both parties can communicate via real-time chats on screen, and RENOVATIO will even notify the users of incoming messages and shared files.

Hi. I have a few questions about this patent. My company operates in the technical field of metal furniture. Will your invention have 3 or 4 chair legs?
3 minutes ago

Valentina Bradtke

Our invention can have multiple chair legs (3, 4 or more if you like) as the patent claim covers. Uniqueness is in the patent legs that can be shortened or lengthened. Our licensing fee is \$10K per year x 7 years left = \$70K total. As a patent holder,

Valentina Bradtke

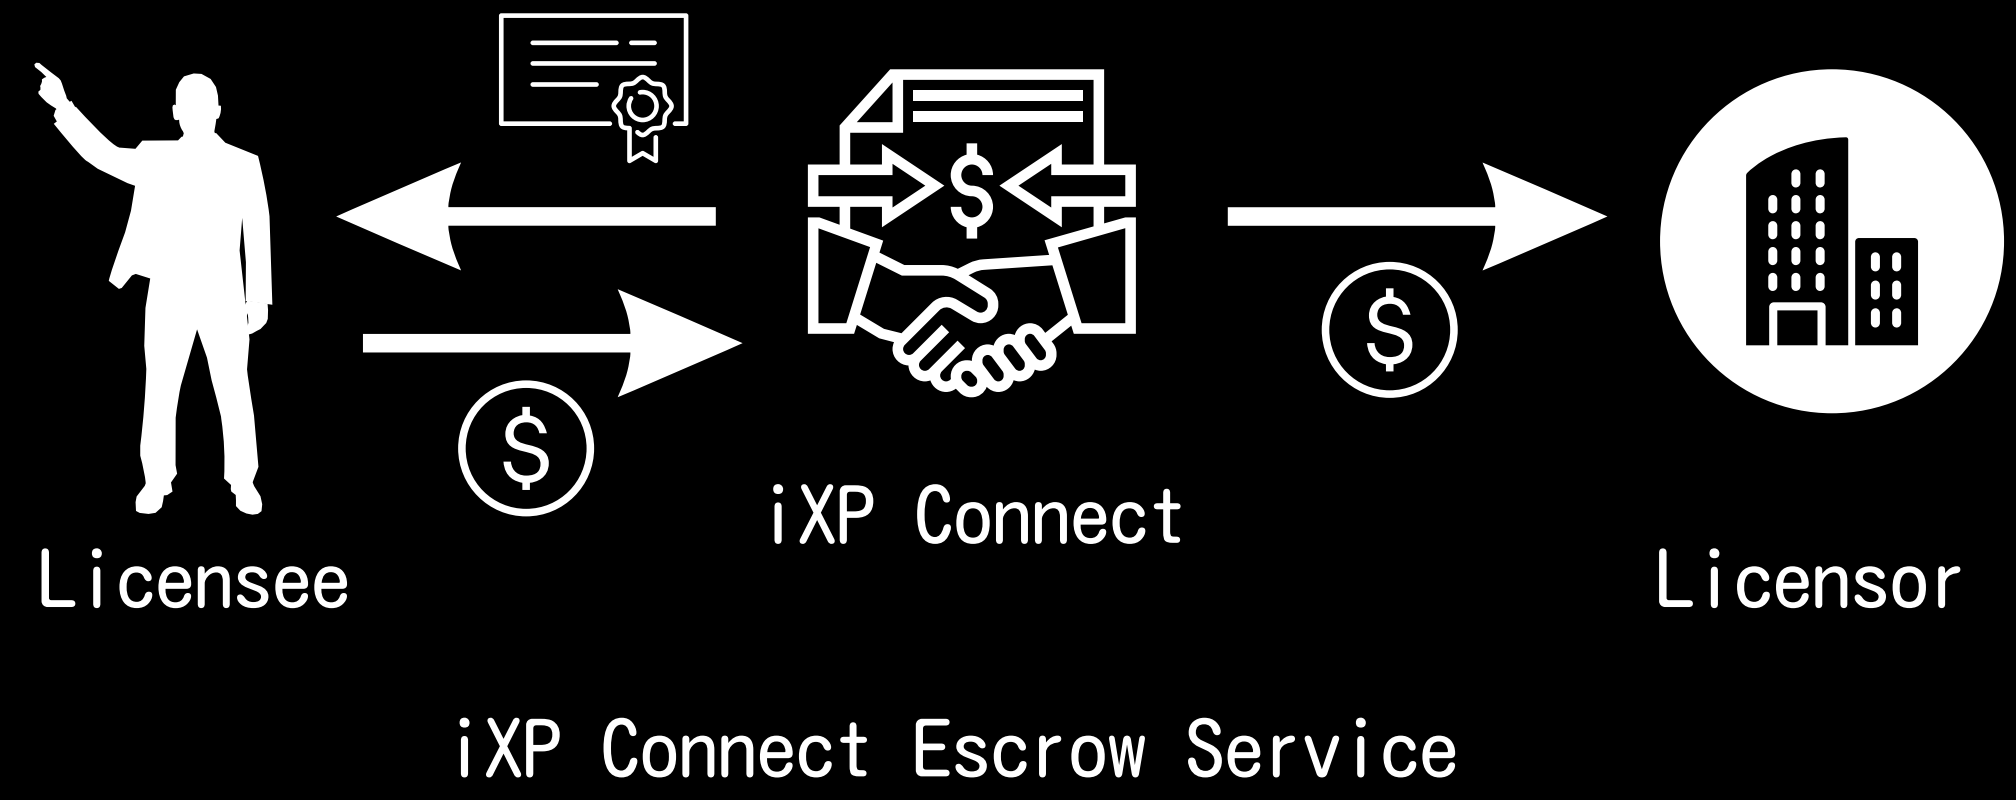

Response: Our invention can have multiple chair legs (3, 4 or more if you like) as the patent claim covers. Uniqueness is in the patent legs that can be shortened or lengthened. Our licensing fee is \$10K per year x 7 years left = \$70K total. As a patent holder,

RENOVATIO HANDLING MONEY

Based on your agreement, iXP Connect will invoice the licensee. The licensing fee (first year only) will be collected and disbursed by iXP's third party Escrow Service, until all parties sign off on the disbursement process.

This transparent process keeps everyone including iXP Connect honest.

iXP Connect provides a streamlined patent licensing process via RENOVATIO.

By simplifying and making the process transparent and affordable for both parties, we aim to expand the horizon of innovation possibilities.
